

CELL ADVANCE™ 880 » Antioxidant Support

Cell Advance™ is a superior antioxidant formula that provides 23 powerful antioxidants at levels that are designed to work with traditional or alternative therapies.

Vitamins A, C, E and B6 support the immune system and help protect against free radical damage. Two forms of vitamin B6 are provided for animals with reduced B6 levels. Quercetin, rutin and hesperidin are important antioxidants that support vascular and connective tissue health, maintain healthy collagen levels, and protect cell structures from free radical damage.

Alpha Lipoic Acid is a unique fat and water-soluble antioxidant that offers protection against free radicals both inside and outside of the cell. It may also extend the biochemical life of other antioxidants, such as glutathione and vitamins A, C and E.

Coenzyme Q10 is a necessary co-factor for the production of cellular energy (ATP) to support immune system health.

Four enteric coated amino acids (L-cystine, L-lysine, methionine, L-glutathione) support

cellular respiration, antibody production, and antioxidant activity. These amino acids are precursors to amino acids and enzymes that rid the body of peroxides.

A full complement of minerals (magnesium, manganese, molybdenum, copper, zinc and selenium) support normal detoxification, utilization of SOD, and enzyme production and utilization. Selenium also acts as an antioxidant.

Catalase is an enteric-coated enzyme that deactivates hydrogen peroxide and supports cellular respiration. Super Oxide Dismutase (SOD) is an enteric-coated enzyme that rids the body of super oxides (free radicals). The SOD in Cell Advance is a special form that is stable at low pH.

Cell Advance™ capsules contain specific ingredients that have been enteric-coated. Enteric coating allows each ingredient to be utilized where it is needed most.

PRODUCT DETAILS:

Cell Advance™ 880 is recommended to support and maintain the immune system.

ACTIVE INGREDIENTS PER CAPSULE:

Ascorbic Acid (Vitamin C)	250 mg	Palmitate (Vitamin A)	1,000 IU
d-alpha Tocopheryl Succinate	75 IU	Super Oxide Dismutase	5 mg
(Vitamin E)		(Enteric Coated)	
Methionine (Enteric Coated)	25 mg	Quercetin	5 mg
L-Cysteine (Enteric Coated)	25 mg	Coenzyme Q10 (Ubiquinone)	2.5 mg
L-Glutathione (Enteric Coated)	25 mg	Pyridoxal-5-Phosphate	2.5 mg
Alpha Lipoic Acid	20 mg	(Vitamin B6)	
Magnesium	18.75 mg	Manganese	0.5 mg
(as Magnesium Ascorbate)		(as Manganese Gluconate)	
Beta Carotene	5,250 IU	Copper (as Copper Gluconate)	0.125 mg
L-Lysine HCl	12.5 mg	Selenium	0.025 mg
Pyridoxine HCl (Vitamin B6)	10 mg	(as Selenium Amino Acid Chelate)	
Hesperidin	10 mg	Molybdenum	0.0125 mg
Rutin	10 mg	(as Molybdenum Amino Acid Chelate)	
Catalase (Enteric Coated)	10 mg		
Zinc	7.5 mg		
(as Zinc Picolinate & Zinc Citrate)			

Inactive Ingredients: cellulose, vegetarian leucine.

DIRECTIONS FOR USE:

Give 1 capsule per 20 lbs of body weight, daily.

If giving more than 1 capsule, divide between AM and PM.
