

VetPro[®] 1000

Mobile Dental
Delivery System

The VetPro® 1000 Mobile Dental Delivery System

Oil-Free, Worry-Free, Hassle-Free

A reliable veterinary dental delivery solution that helps you provide better patient care.

Oil-free compressor

Our exclusive oil-free compressor technology allows you to provide your patients with better, more efficient care without the mess or hassles of oil-lubricated units. The VetPro® 1000 dental delivery system requires no oil changes and very little maintenance for hassle-free operation. Oil-free means there is no oil to contaminate your handpieces, providing a clean, dry, aseptic work environment for you, your staff and your patients.

Designed for veterinary dentistry

The VetPro® 1000 has precise controls designed specifically for veterinary dentistry. You can switch from handpiece to handpiece without touching a button – the unit will automatically adjust as the handpiece is lifted from its cradle. The oil-free compressor means there are no oily parts for animal hair to stick to, and, it's one of the quietest compressors on the market with a sound level of 40 dB.

Durable construction

Its durable construction withstands the rigors often found in clinical settings. The VetPro® 1000 is a completely enclosed system to protect internal mechanics from contaminants and animal hair, and is made from sturdy ABS plastic to withstand the strains caused by frequent usage.

Supported by Midmark

The VetPro® 1000 gives you unsurpassed reliability, backed by our trained service technicians and independent service network. You will have peace of mind knowing that over 90 years of manufacturing experience goes into each product. VetPro® 1000...the oil-free, worry-free, hassle-free solution for your veterinary dental needs.
