

SAFETY DATA SHEET Anxitane® (L-Theanine) Chewable Tablets

1. IDENTIFICATION

Product Name Anxitane® (L-Theanine) Chewable Tablets

Recommended use of the chemical and

restrictions on use

Identified uses Chewable tablets for cats and dogs to help keep them

calm and relaxed.

Restrictions on Use For veterinary use only

Company Identification Virbac AH, Inc.

P.O. Box 162059

Fort Worth, Texas 76161 (800) 338-3659

(800) 424-9300

Customer Information Number

CHEMTREC Number

Emergency Telephone Number

Other Emergency Number: Poison Control Center: 1-800-222-1222

Issue Date May 12, 2015 Supersedes Date May 10, 2012

Safety Data Sheet prepared in accordance with OSHA's Hazard Communication Standard (29 CFR 1910.1200) and the Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

2. HAZARD IDENTIFICATION

Hazard Classification

This product is classified as not hazardous in accordance with the Globally Harmonized System of Classification and Labelling (GHS).

Label Elements

Hazard Symbols

None

Signal Word: None

Hazard Statements

None

Precautionary Statements

Prevention

None

Response

None

Storage

None

Disposal

None

Other Hazards

None

Revision Date: May 12, 2015 Page 1 of 7

2. HAZARD IDENTIFICATION

Specific Concentration Limits

The values listed below represent the percentages of ingredients of unknown toxicity.

Acute oral toxicity <10%
Acute dermal toxicity 20 - 30%
Acute inhalation toxicity 20 - 30%
Acute aquatic toxicity >90%

3. COMPOSITION/INFORMATION ON INGREDIENTS

Synonyms:

This product is a mixture.

Component Name CAS Number Concentration

 Suntheanine® (L-theanine)
 3081-61-6
 10-15%

 Magnesium Stearate
 557-04-0
 1 -10%

Tablets are supplied in 50mg and 100mg concentrations of Suntheanine®.

4. FIRST - AID MEASURES

Description of necessary first-aid measures

Eves

Immediately flood the eye with plenty of water, holding the eye open. Obtain medical attention if soreness or redness persists.

Skin

If irritation develops wash skin thoroughly with soap and water. Obtain medical attention if redness or soreness persists.

Ingestion

Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Inhalation

Remove person to fresh air. Seek medical attention if symptoms persist.

Most important symptoms/effects, acute and delayed

Aside from the information found under Description of necessary first aid measures (above) and Indication of immediate medical attention and special treatment needed, no additional symptoms and effects are anticipated.

Indication of immediate medical attention and special treatment needed

Notes to Physicians

Treat symptomatically.

5. FIRE - FIGHTING MEASURES

Extinguishing Media

Use extinguishing media appropriate for surrounding materials.

Revision Date: May 12, 2015 Page 2 of 7

FIRE - FIGHTING MEASURES

Unusual Fire and Explosion Hazards

Can release hazardous vapors during a fire.

Protective Equipment for Fire-Fighting

Wear full protective clothing and self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Wear appropriate protective clothing.

Environmental Precautions

Prevent the material from entering drains or watercourses.

Methods and materials for containment and cleaning up

Sweep up and transfer into suitable containers for recovery or disposal. Prevent the material from entering drains or watercourses. Large amounts should be disposed of in a sanitary landfill.

7. HANDLING AND STORAGE

Precautions for safe handling

Wear appropriate protective clothing.

Conditions for safe storage

Store in original container at temperatures between 59°F and 86°F (15°C - 30°C). Store away from children and pets. Large amounts should be disposed of in a sanitary landfill.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure limits are listed below, if they exist.

Magnesium Stearate as Stearates

ACGIH: TLV 10 mg/m3 8h

Appropriate engineering controls

No specific measures necessary. Good general room ventilation is expected to be adequate to control airborne levels.

Individual protection measures

Respiratory Protection

Not required under normal conditions of use.

Skin Protection

Not required under normal conditions of use.

Eye/Face Protection

Not required under normal conditions of use.

Body Protection

Normal work wear.

Revision Date: May 12, 2015 Page 3 of 7

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

Physical State Solid (tablet)

Color White to off white with beige speckles

Odor None

Odor Threshold No data available No data available pН No data available **Density Boiling Range/Point (°C/F)** No data available Melting Point (°C/F) No data available Flash Point (PMCC) (°C/F) Not flammable No data available **Vapor Pressure Evaporation Rate (BuAc=1)** No data available Solubility in Water No data available Vapor Density (Air = 1) No data available VOC No data available Partition coefficient (n-Not applicable

actor of water

octanol/water)

Viscosity
Auto-ignition Temperature
Decomposition Temperature
Upper explosive limit
Lower explosive limit
Flammability (solid, gas)

Not applicable
No data available
No data available
No data available

10. STABILITY AND REACTIVITY

Reactivity

Data is not available

Chemical Stability

Stable under normal conditions.

Possibility of hazardous reactions

Hazardous polymerization will not occur.

Conditions to Avoid

Heat - high temperatures

Incompatible Materials

None known.

Hazardous Decomposition Products

Oxides of carbon - nitrogen oxides

11. TOXICOLOGICAL INFORMATION

Acute Toxicity

Suntheanine® (L-theanine): LD50 Oral (rat) >5000 mg/kg

11. TOXICOLOGICAL INFORMATION

Specific Target Organ Toxicity (STOT) - single exposure

No relevant studies identified.

Specific Target Organ Toxicity (STOT) - repeat exposure

Suntheanine® (L-theanine): The no observed adverse effect level (NOAEL) in a 28-day study in rats was 2000 mg/kg bw/day, the limit dose tested. In a 90-day subchronic dietary study in rats, the NOAEL was the highest dose tested, 4000 mg/kg bw/day, and there was no toxicity at any dose tested (1500mg, 3000mg and 4000mg).

Serious Eye damage/Irritation

No relevant studies identified.

Skin Corrosion/Irritation

No relevant studies identified.

Respiratory or Skin Sensitization

No relevant studies identified.

Carcinogenicity

Not considered carcinogenic by NTP, IARC, and OSHA.

Suntheanine® (L-theanine): Administration of up to 5% in the diet of mice for 78 weeks showed no evidence of carcinogenicity

Germ Cell Mutagenicity

Suntheanine® (L-theanine): was not mutagenic in two assays at the limit concentrations tested.

Reproductive Toxicity

No relevant studies identified.

Aspiration Hazard

Not an aspiration hazard.

12. ECOLOGICAL INFORMATION

Ecotoxicity

No relevant studies identified.

Mobility in soil

No relevant studies identified.

Persistence/Degradability

No relevant studies identified.

Bioaccumulative Potential

No relevant studies identified.

Other adverse effects

No relevant studies identified.

Revision Date: May 12, 2015 Page 5 of 7

13. DISPOSAL CONSIDERATIONS

Disposal Methods

Dispose of in accordance with all applicable local and national regulations.

14. TRANSPORT INFORMATION

Contact supplier for transport information.

15. REGULATORY INFORMATION

United States TSCA Inventory

This product contains ingredients that have not been verified for listing on the EPA Toxic Substance Control Act Chemical Substance (TSCA) Inventory.

Canada DSL Inventory

This product contains ingredients that have not been verified for listing on the Domestic Substance List (DSL).

California Proposition 65

This product contains the following materials which the State of California has found to cause cancer, birth defects or other reproductive harm: None

SARA Title III Sect. 311/312 Categorization

None

SARA Title III Sect. 313

This product contains a chemical that is listed in Section 313 at or above de minimis concentrations. The following listed chemicals are present: None

16. OTHER INFORMATION

Legend

ACGIH: American Conference of Governmental Industrial Hygienists

BOD: Biological Oxygen Demand

CAS#: Chemical Abstracts Service Number

FIFRA: Federal Insecticide, Fungicide and Rodenticide Act

IARC: International Agency for Research on Cancer

LC50: Lethal Concentration 50%

LD50: Lethal Dose 50%

N/A: Denotes no applicable information found or available

NOEL: No observable effect level

NOAEL: No observed adverse effect level

NTP: National Toxicology Program

OSHA: Occupational Safety and Health Administration

PEL: Permissible Exposure Limit STEL: Short Term Exposure Limit

TLV: Threshold Limit Value

TSCA: Toxic Substance Control Act

16. OTHER INFORMATION

Revision Date: May 12, 2015 Replaces: May 10, 2012

Changes made: Update to GHS.
