

VETRI MEGA PROBIOTIC

A Supplement Providing FOS and Viable Naturally Occurring Microorganisms

Vetri Mega Probiotic is a non-dairy probiotic formulation produced from an all-natural source of beneficial microorganisms and FOS to support digestive tract health.

Vetri Mega Probiotic is:

- » Guaranteed to contain 5 billion microorganisms per capsule with 8 different strains from non-dairy sources.

Recommended for:

- » Gastrointestinal and neurological support
- » Immune system support
- » Food intolerances
- » Supporting digestion
- » Supporting regularity
- » Poor diet

About the formula

- » Lactobacilli (L. acidophilus, L. rhamnosus, L. casei) produce lactic acid in the small intestine. Many strains of bacteria from the Lactobacillus family have been shown to support regularity, urogenital and vaginal health, as well as produce the lactase enzyme and protect the gut lining from unwanted materials.

- » Bifidobacteria (B. lactis, B. breve, B. longum, B. bifidum) are located in the colon and produce lactic and acetic acids, making the gut a very inhospitable place for unwanted materials. Bifidobacteria have been shown to support regularity.
- » Streptococcus Thermophilus is also a lactic acid producer that lines the gut wall to provide a barrier from unwanted materials, and it supports regularity and produces the lactase enzyme.
- » Fructooligosaccharides (FOS) are considered a soluble fiber and prebiotic, which supports the growth of beneficial microorganisms in the intestinal tract. FOS, as a fiber, increases the bulk in the gut to support regularity.

GUARANTEED ANALYSIS:

Guaranteed Analysis per Capsule (600 mg):
Levels represent minimums unless otherwise stated:

Moisture (max)	6.0%
*Total Microorganisms	10 Billion CFU/gram
Dried Lactobacillus acidophilus Fermentation Product	
Dried Lactobacillus plantarum Fermentation Product	
Dried Bifidobacterium bifidum Fermentation Product	
Dried Lactobacillus casei Fermentation Product	
Dried Lactobacillus brevis Fermentation Product	
Dried Bifidobacterium longum Fermentation Product	
Dried Enterococcus thermophilus Fermentation Product	
*FOS (Fructooligosaccharides)	200mg

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

Inactive Ingredients: rice flour, fructooligosaccharides, vegetable cellulose, dried lactobacillus acidophilus fermentation product, dried lactobacillus plantarum fermentation product, dried bifidobacterium bifidum fermentation product, dried lactobacillus casei fermentation product, dried lactobacillus brevis fermentation product, dried bifidobacterium longum fermentation product, dried enterococcus thermophilus fermentation product, vegetable stearate.
