

CLENZ-A-DENT DENTAL STICKS

Dental Chewing Sticks for Dogs

TECHNICAL SPECIFICATIONS:

Dental chewing sticks for dogs. Sticks are made from extruded cereals. GMO free.

PROPERTIES:

The unique and advanced shape of Clenz-a-dent RF2 Sticks allows the dog to chew longer, on average for 10 minutes. The mechanical effect of chewing added to the abrasive texture of Clenz-a-dent RF2 Sticks help prevent the accumulation of plaque and calculus, keeping teeth clean and breath fresh.

USES:

For Dogs only. Recommended to help maintain a healthy mouth and gums.

FEEDING DIRECTIONS:

Give up to 1 CLENZ-A-DENT Dental Stick per day, preferably after meal. Make sure the dog has access to fresh water. It is recommended to monitor your dog while this product is being chewed. Gulping whole sticks can be harmful to a dog.

Dog under 10 kg (22 lbs): use CLENZ-A-DENT Dental Stick S

Dog between 10 kg and 25 kg (22 lbs - 55 lbs): use CLENZ-A-DENT Dental Stick M

Dogs over 25 kg (56 lbs): use CLENZ-A-DENT Dental Stick L

Clenz-a-dent RF2 Sticks can be used in protocol with other Clenz-a-dent products to optimize oral health. Veterinarian recommendations should be observed.

This product is intended for intermittent or supplemental feeding only.
