## Cat Urine Sample Collection Kit

Revolutionary hydrophobic sand that keeps the cat's urine on top, making sample collection easy!

Non Invasive

100% Natural

Easy to Use

Cats love it

**Kit4Cat** is revolutionary biodegradable hydrophobic sand that has a natural non-toxic urine repelling coating. It allows veterinarians, technicians, and cat owners to quickly and easily collect a cat's urine sample, without resorting to invasive procedures such as Cystocentesis.

To use, simply spread the contents of a bag of **Kit4Cat** sand into a clean and empty litter tray, and let the cat freely urinate onto the sand. The cat's urine will stay on top, allowing you to collect the urine using the pipette and vial that are included. Collecting a urine sample with **Kit4Cat** is non-invasive, keeping the cat and its owner happy, and the vet and technician scratch-free.

**Kit4Cat** feels and smells just like regular sand, so cats are very cooperative patients when you need to collect a urine sample. If you have a diabetic cat, you can easily collect frequent samples in the comfort of your home. **Kit4Cat** is veterinarian approved and has taken many years of extensive research and development to bring to market. To watch a demonstration video, please visit [www.Kit4Cat.com](http://www.Kit4Cat.com).

## Everybody Loves Kit4Cat:

***"We have started to use the Kit4Cat sand in place of the Nosorb. Clients and their cats like it more. We love the product."***  
Dr. Cynthia Wojcicki, Merrimac Valley Animal Hospital.

***"I tried this product right after the vet conference with a client I could not collect a urine sample on. Worked great. I am sold. Easy!"***  
Dr. Susan Grove, San Diego Vet2You Veterinary Services

***"It works great! We used the sample bag and have ordered more! Thank you!!!"***  
Christine A. Webber, Hospital Manager, Southeast Veterinary Oncology

***"4 days with Nosorb litter, cat kept urinating on paper or blanket. When sand came in, put in cage and overnight cat used box, able to obtain free catch sample."***  
Andrea Stoops, Vet Nurse, Ayer Animal Medical Center

***"I actually spoke to the particular client we sent Kit4Cat home with; he thoroughly enjoyed the product and thought it worked well..."***  
Stacie Morneault, Veterinary Technician, Fort Kent Animal Hospital

***"We thought the kit was great."***  
Karen Campbell, Veterinary Technician, Smithtown Valley Animal Hospital
