

VETRI DISC Back Support Formula

Vetri Disc is a unique formulation designed exclusively to support connective tissues associated with the spine.

Vetri Disc combines bovine tracheal cartilage with mineral sulfates, amino acids, vitamins, pepsin, and natural sources of silicon, which are all necessary for the support and maintenance of connective tissue.

About the formula:

- » Bovine Tracheal Cartilage is rich in chondroitin sulfates which make up the matrix of connective tissue and are found in high concentration in the tissue of the spine and intervertebral discs.
- » Manganese is necessary for the activation of enzymes that are vital for the biosynthesis of glycosaminoglycans.
- » Equisetum Arvense, a natural source of silicon which is necessary for the synthesis and integrity of connective tissue.
- » Vitamin C (calcium ascorbate and ascorbic acid) supports collagen production and glycosaminoglycan metabolism.
- » Calcium is essential for proper growth and maintenance of bone.
- » Pyridoxine HCl (vitamin B6) is necessary for the formation of certain proteins and aids in nerve function.
- » Vitamin D aids in the absorption of calcium from the intestinal tract and in the breakdown and assimilation of phosphorous.
- » Magnesium (sulfate, oxide) helps aid bone growth and the assimilation of calcium and potassium. Magnesium also plays an important role in neuromuscular contractions (relaxes the muscles).
- » Zinc (sulfate) is necessary for tissue respiration and is important in the healing process.
- » Taurine is a sulfur containing amino acid involved in the synthesis of connective tissue.
- » Serine is an amino acid which links the glycosaminoglycans structure to the protein portion of connective tissue.

ACTIVE INGREDIENTS PER CAPSULE:

Bovine Tracheal Cartilage	200 mg	Magnesium (as Magnesium Sulfate)	10 mg
(Source of Chondroitin -4- and -6- Sulfates)		Pyridoxine HCl (Vitamin B6)	10 mg
Ascorbic Acid (Vitamin C)	100 mg	Potassium (as Potassium Citrate)	9.5 mg
Pectin	100 mg	Pepsin	5 mg
L-Taurine	50 mg	Zinc (as Zinc Sulfate)	1.8 mg
Manganese (as Manganese Sulfate)	30 mg	Cholecalciferol (Vitamin D3)	30 IU
L-Serine	30 mg		
Calcium	25 mg		
(as Calcium Carbonate, Calcium Ascorbate)			
Horsetail Rush (Equisetum arvense)			
Herb Powder	10 mg		

Inactive Ingredients: gelatin, rice flour.

JOINT HEALTH

ALL

WEIGHT RANGES

PRODUCT DETAILS:

Vetri Disc for Dogs is recommended to support proper structure and function of the spine and connective tissue.

DIRECTIONS FOR USE:

Under 15 lbs: 1 capsule daily
16 - 35 lbs: 2 capsules daily
36 - 80 lbs: 3 capsules daily
Over 80 lbs: 4 capsules daily

If giving more than 1 capsule daily, divide between AM and PM.
