

SPRINT AIR

Ultralight DR™
Powered by **Canon**

 **sound**™
A VEX COMPANY

Seamless Wireless Integration from Capture to Cloud

With Sound's™ most streamlined workflow yet, you'll be set up and shooting in about two minutes.

With Sprint AIR we raised the bar even higher!
100% wireless system features the latest technologies: Canon DR's exceptional image capture with auto-sense,

Macbook Pro's amazing retina display and flash architecture seamlessly flowing from capture to cloud to review. The Sound™ Sprint AIR is designed to be reliable, fast and flexible. Your increased productivity allows greater focus on the patient, which always supports a stronger bottom line.

SPRINT AIR

Ultralight DR™

Powered by **Canon**

Sprint AIR is designed to take the weight off your shoulders and support the daily challenges of the mobile equine veterinary practice.

Performance

With the fewest possible moving parts, Sprint AIR is efficient and durable. Guess what's missing: no sync cables, batteries, or boxes. Canon's latest auto-sense - non-generator connection mode is a major medical advance, now available horse-side.

Packaged in a tough ballistic nylon pack

Sprint AIR can run on battery power for a typical full day's work and plug in for those endless days.

Powerful

With the legendary Canon reliability, Sprint AIR integrates the latest technology with industry standard image quality in a powerful, go anywhere, image anything platform.

Productive

Work anywhere, stow anywhere. Sprint AIR is a productive and profitable asset in your practice.

Completely Wireless

The Canon CXDI-801C lightweight, wireless DR panel features auto-sense – non-generator connection mode.

Ultralight

- 18 pounds (8 kg) self-contained, including DR panel
- Several panel holder options
- Easy transport. Multiple carrying options

Flexible

The remote laptop for image acquisition and review works off battery or can plug-in providing a new level of flexibility in workflow.

Protocol Sound™ veterinary optimized algorithms and protocols

Your Workflow. Your Choice.

Canon Digital Radiography Options to Fit Your Practice

Whether your practice is ambulatory, hospital-based or mixed, you will find a DR solution that fits right in with your workflow needs.
