

HEPATICLEAR™ PRO

HepatiClear™ Pro supports hepatic and immune health and normal phases of liver detoxification.

HepatiClear™ Pro contains unique ingredients in a formula designed to support liver health, methylation, and normal detoxification functions.

HepatiClear™ Pro supports:

- » Phase I and Phase II normal liver detoxification pathways
- » Fat metabolism
- » Antioxidant protection
- » Glutathione and SAME production
- » Methylation pathway through SAME production

Phytosomes enhance the absorption and bioavailability of herbal extracts. Phytosomes are produced by a process whereby the standardized plant extract or its constituents are bound to phospholipids, mainly phosphatidylcholine in order to produce a lipid compatible molecular complex. Studies have shown that these substances are significantly better absorbed than conventional phyto-molecules or botanical extracts, especially curcumin and milk thistle.

Phase I detoxification neutralizes unwanted chemicals by converting toxins into less harmful substances. During this process free radicals are produced which, if excessive, can damage liver cells.

Phase II detoxification removes unwanted substances from the body by converting them into water-soluble chemicals that can be easily excreted via bile and urine. Ingredients that support Phase II processes include glutathione and cysteine, and turmeric. Phase II is also called the conjugation pathway because this is where

the liver cells add another substance (like methyl groups) to a toxic chemical or drug to make it less harmful. This process supports the elimination of excessive free radicals that damage liver cells.

Important ingredients include:

- » Dimethylglycine to support the production of glutathione, SAME, sulfur based amino acids, and to support the immune system
- » Betaine (TMG) to support the production of DMG, glutathione and methylation of homocysteine to methionine
- » SILIPHOS®, a branded Phytosome® ingredient in which silybin, (the active principle in milk thistle), is combined with phospholipids to significantly improve bioavailability
- » CurcuVET®, a Curcumin Phytosome®
 - › Numerous studies in dogs, horses, sheep, rodents, and humans demonstrate CurcuVET®'s potential for helping to maintain normal inflammatory processes.
 - › Pharmacokinetic studies demonstrate a nearly 30 fold increase in bioavailability when compared to standard curcumin extracts.
- » Bilear™ brand Artichoke Leaf Extract to help normalize liver metabolism and promote bile flow
- » Vitamin E is an important antioxidant that helps protect the liver from copper accumulation
- » Zinc acts as an antioxidant by inhibiting lipid peroxidation and helps protect against fibrosis

Available in an imitation chicken liver flavored chew.

CurcuVET®, Siliphos®, and Bilear™ are trademarks of Indena S.p.A.

WEIGHT
RANGES

7 DAYS A WEEK

PRODUCT DETAILS:

HepatiClear™ Pro is a powerful formula containing antioxidant plant extracts in phytosome form to support liver health and proper detoxification. These ingredients, along with immunological supportive substances like DMG and betaine, offer advanced support for normal phases of the detoxification process.

60 CHEWS

DIRECTIONS FOR USE:

- 0-30 lbs: ½ chew daily
- 31-60 lbs: 1 chew daily
- 61+ lbs: 2 chews daily

Active Ingredients per Chew (4.5 g):

Betaine	500 mg
dl-alpha Tocopheryl Acetate (Vitamin E)	175 IU
CurcuVET® Curcumin Phytosome® (Turmeric <i>Curcuma longa</i> root extract / phosphatidylcholine complex)	100 mg
Siliphos® Silybin Phytosome® (Milk thistle <i>Silybum marianum</i> seed extract/phosphatidylcholine complex)	100 mg
Bilear™ (Artichoke <i>Cynara cardunculus</i> leaf extract)	100 mg
N,N-Dimethylglycine HCl (DMG)	100 mg
Zinc (Zn Proteinates)	10 mg

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, canola oil, citric acid, citrus pectin, glycerin, imitation chicken flavor, maltodextrin, mixed tocopherols, oat flour, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

090024F.060

HEPATICLEAR™ PRO

- » For dogs of all ages
- » Recommended for dogs needing everyday support to normalize liver enzyme levels
- » Does not require fasting
- » Features phytosome technology for improved bioavailability
- » 60 count bag with dosing for all weight ranges
- » Very cost-effective
- » 100% satisfaction guarantee
